wdpurner@rescomp.wustl.edu

### Treasurer

Jim Wulfers

(314) 739-1819

jimwulfers@ninenet.com

### Newsletter Editor

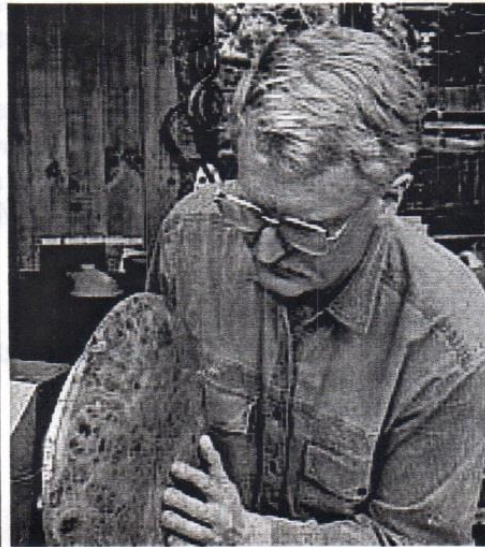

Gary Johnson

(314) 739-4791

garyljohnson@email.msn.com

**NO MEETING IN SEPTEMBER  
COME TO THE  
VIC WOOD DEMONSTRATIONS  
SEPT 23**

## Vic Wood to demonstrate on Sept. 23

Vic Wood will present a full day of woodturning demonstrations on Sept. 23 at the Powder Valley facility. Vic is an internationally recognized woodturner living in Australia. He has taught all areas of woodworking for many years and has been widely involved in all areas related to wood. In 1983 he commenced full time woodturning, and has travelled to England, Canada, U.S.A., New Zealand and throughout

Australia teaching and demonstrating woodturning. He produces large pieces which are sold mainly through exhibitions, and smaller square-edged boxes with lids (his signature work) sold through galleries around the world. Vic will present an extensive range of turning topics including: hollow form, square-edged lidded container, bowls from green and from dry wood, chucking methods, sanding, finishing and more. Plan now to attend. **Please fill out the enclosed registration form and send it to Jim Wulfers as soon and you can.**

**A special thanks to  
Fletcher Hartline for his August 27th presentation  
on using found wood.**

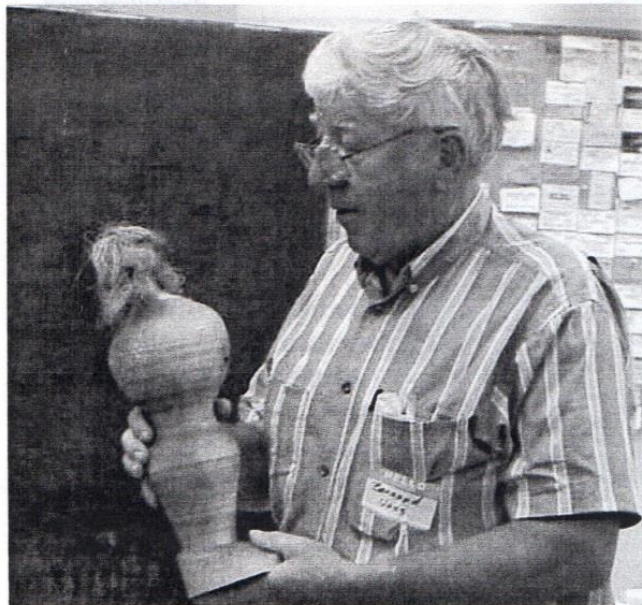

We learned about:

- harvesting the wood and how to orient it to yield the desired turned piece
- how to cut crotches and bowl blanks.
- how the wood reacts when turned green and then dries.

## August meeting Show and Tell

We always learn from our show and tell sessions and our August session was a good one.

**Bernhard Voss** shows a multi-axis turning he made while at a class at Arrowmount. He also showed several other pieces made during the Michael Lee class.

**Bill Farney** showed a thin Myrtlewood bowl.

**Carl Hacker** showed a hollowing tool with an articulated cutter holder.

**Bill Rubenstein** showed a stool with spindle turned legs.

**Fred Tolley** showed a home made steady rest for tuning long thin spindles.

**Mario Vitale** showed a nice large bowl.

**Paco Navarro** showed some small natural edged bowls made from Pulm.

**Roger Branson** showed a vessel and an Elm bowl.

**John Buehrer** showed a Mulberry bowl and a Walnut bowl. He also showed a steel steady rest with skate wheels that he had made.

**Fletcher Hartline** showed the seam rippers he made after seeing the Seckinger demonstration at the July meeting. One was of Pink Ivory and one was of Walnut.

## Announcements

**September 23 Joy of Turning with Vic Wood** presented by Woodturners of St. Louis. **If you can help moving in and setting up on Friday, Sept.22 call Gary at (314) 739-4791.**

**Sept. 22-24 Woodworkers Show** at the St. Charles Family Arena. We know that most of the club members will be attending the Vic Wood Demo. but, if you can help by turning tops at the show on Saturday from 2PM to 6PM call Ernie Guhl at (314) 741-0005.

**We are stocking the club library.** If you have books, magazines or video tapes you would like to donate to the library please get them to Bernhard Voss or Mario Vitale.

**Binh Pho** will demonstrate applying metal leaf to turnings at the October 22 club meeting.
