

WOODTURNERS OF ST. LOUIS

A Chapter of the American Association of Woodturners

August 2005

2005 AAW SYMPOSIUM

by Matt Keim

Now that the dust has settled and the chips have cleared, what happened at the symposium? The St. Louis Woodturners had a great showing at this year's symposium, totaling close to 30 members in attendance.

Our chapter collaborative took first place in the Fantasy category with our "Rendezvous at the Pond" entry. Two members took home free Jet mini lathes with

all the necessary accessories from the Youth Turning Program, a \$1,000 value. Bin Pho's donated items to the live auction, which over 1300 people attended, helped bring in a tremendous amount of money for the Educational Opportunity Grant program.

NEXT MEETING

August 28, 2005 ~ 1-4pm

Woodcraft

2077 Congressional Drive

Maryland Heights, MO 63146

Phone: 314-993-0413

The symposium was an outstanding event that gave woodturners from around the world an opportunity to share techniques, ideas and visions. Each day was packed full of demonstrations, gallery viewing, and vendor browsing. Friday and Saturday offered four rotations with up to 15 demonstrations to choose from during each, Sunday offered three rotations.

No one could possibly absorb all the great information offered over the three days. We have probably all forgot half of what we learned but kept twice what we already knew.

The camaraderie among this group was unbelievable. Every where you went turners from various places were discussing the galleries, vendor floor, personal projects or just telling stories.

cont'd on page 2 & 3

St. Louis Wood Turners

2

cont'd from page 1

The rotations included demonstrations from basic bowl turning to advanced hollow form turning, carving and coloring. Every demonstration left you anxious to get home and turn.

Many demonstrations, such as box making, were demonstrated by multiple individuals during different rotations. This gave you an opportunity to see different approaches at achieving similar results. You could see how each turner finds what works best for him or her and masters that approach. As the old saying goes “there’s more than one way to skin a cat”.

Some demonstrations did not include any actual turning but instead covered related subjects. Some of these were lighting for digital and film imaging, tool steels and panel discussions. It was helpful to take notes for later reference since the amount of information presented was more than one could remember.

A new addition to this year’s symposium was the Youth Turning Program. As part of the program 20 lathes, complete with tools, chucks and safety equipment were given away to

randomly drawn participants. St. Louis Woodturners were fortunate enough to have 2 members win one!

Look for a special article on this in a future newsletter. All the participants had the opportunity to learn from Bonnie Klein during daily sessions. Each of the 52 participants seemed to have a wonderful time and left charged with a new enthusiasm for woodturning. We are all aware of the need to get more youth involved in our craft. This program was a great addition to

St. Louis Wood Turners

3

cont'd from page 2

the symposium that I hope continues for years to come.

There were two exhibits at this year's symposium. A juried exhibit, "reTURN to the Land of Oz", and the instant gallery. The juried exhibit featured selected turnings that followed the theme of the symposium. It was sometimes difficult, though, to see where each item fit the theme. This exhibit featured wonderfully executed pieces that incorporated various media and techniques.

The most impressive display was the Instant Gallery where each attendee could bring up to three pieces. This exhibit was open to all members who attended and was not juried. Many of our members had turnings on display in the instant gallery.

Above: These are a few of our club members pieces on display in the instant gallery

Here you could hundred of turned piece from turners of all skill levels. If there was ever one place to go for inspiration and ideas, the instant gallery was it.

The symposium seemed to sum up what woodturning is all about and squeeze it into three days. If you missed it this time plan on joining us in Louisville next year as it may not return to the Midwest for a while.

The 2006 Symposium will be held in June. Look in future newsletters for continued information.

TURNING FOR SALE

Anyone wanting to display vessels for sale at Krueger Pottery should bring them next meeting. Labeled, and priced. 60% goes to the turner, 40% to the store.

We are looking for vessels and bowls only, so they fit in well with the pottery displays. Questions, call Mike Marxer.

* AUGUST*

DEMONSTRATION

Think it's easy to turn a sphere, it's not! Join us for our August meeting. We will have demonstrations on how to turn a sphere. Demonstrators may include John Buehrer and/or Paco Navarro.

* SEPTEMBER*

CHALLENGE

September's challenge will be to turn a Bocce Ball. The demonstration in August will show you how to turn a sphere, which will help you accomplish this difficult shape. The standard size for a Bocce Ball is 113mm or 4.45in. Try to turn a solid sphere around 4.5 inches. Finish your ball any way you want, whether it is painted, marbled, textured, lacquered, etc. Make it your own. We will of course, plan to play many games of Bocce at the club picnic in September.

SAVE THE DATE

OUR ANNUAL CLUB PICNIC
WILL BE HELD ON

SUNDAY, SEPTEMBER 25

AT SPENCER CREEK PARK
IN ST. PETERS. LOOK IN THE
SEPTEMBER ISSUE FOR A MAP
AND MORE DETAILS.

CLUB MEMBER DISCOUNTS

WOODCRAFT is offering all our members a 10% discount on purchases through the end of the year. You must request the discount prior to being rung up. Restrictions apply so ask a member of the Woodcraft staff for details.

CRAFT SUPPLY - For combined orders of \$1,000 or more you will receive free shipping and approximately a 10% discount.

GREEN END SEAL

All members of the St. Louis Woodturners have the good fortune to purchase end seal at a greatly reduced cost. Dave Endres has been gracious enough to store the clubs drum of end seal and sell to our members for only \$5 per gallon. To take advantage of this great opportunity please contact Dave. If you contact him by the Friday before a meeting he will bring the end seal to the meeting and collect your money. Otherwise you may make arrangements to pick it up from his business.

St. Louis Wood Turners

INDIA...

YOU CAN FIND TURNERS ANYWHERE!

Gary Hinegardner recently went to India to visit a friend. While he was there he looked up a turners shop run by the government. Gary was fortunate enough to purchase some of their turnings as well some crude tools.

RAFFLE

Currently there are 2 raffle prizes available. **Blackwood** chances are \$1-(only a few remain) Our next raffle will be a large block of **Myrtle burl** chances are \$1.

In September we will have a turning tunic, quite a unique design. (If you watch *Binh Pho DVD* he is wearing one.) Please come to our next meeting for more details!

NEW LIBRARY

Our library will be reopened in August. Please take a look, we have many new additions including DVDs. For a sneak preview, see page 7 for list of companies who have donated to our library.

Remember the library will only be open to our club at regular scheduled meetings.

NEW OFFICERS

November will bring new officers to the St. Louis Woodturners. Start thinking about who will be the future leaders of the club, maybe you?

All ideas and nominations are welcome. Please bring them to the November meeting.

2006 COLLABORATIVE PROJECT

The next collaborative project will be held at Bill Farney's home and workshop. The first meeting will be Saturday, August 27th. During this meeting the group will propose and select an idea. The project will be brought and submitted to the AAW 2006 Symposium Collaborative Challenge held in Louisville, KY next June.

JULY DEMONSTRATION

GARY JOHNSON ON SEGMENTED TURNING

July's demonstration on segmented turning was presented by Gary Johnson.

There are many types of segmented turnings that are popular today. Gary has found one style that he prefers and has stuck with it for years. He mostly makes what he calls basket bowls in mosaic patterns of Indian basket motifs. Gary's bowls are mostly 1/4" repeated pattern, stacked ring.

From the samples he brought you could see how meticulous you must be when constructing and turning segmented bowls.

Gary went through the process with us step by step explaining how careful planning could give you 2 bowls from one ring. (see diagram below)

When discussing form, Gary shared his opinion inspired from David Ellsworth...turned pieces should be visually appealing when viewed from both right-side up and upside down.

Gary's method was published in a step by step article in the Summer 1998 American Woodturner magazine. If you are interested in trying segmented turning this article would be invaluable.

Woodweisel@aol.com

I'm as tired now as I was acquiring all these great donations from the companies. Thanks to all of them for their support to our club. If anyone buys something from one or all of our sponsors be sure to thank them and to tell me.....great leverage for next year...by that time I will be rested up.

I may have two more donations but you will need to read upcoming newsletters to find out what they are. I don't have them yet but they are coming.....good stuff!

Also, we still have 4 openings for the Michael Bauermeister Demonstration Saturday, October 15 from 2-5pm.

John Buehrer promises this is worth going to but if you sign up you better attend or John is after you. (this is per John) So if you did sign up and can't go please let me know.

Jo Williams

DIRECTIONS TO THE NEW WOODCRAFT STORE

Join us for our next meeting August 28th at Woodcraft. From I-270, exit east on Page Ave (also known as Hwy D or Route 364). Stay to the right and follow the exit signs to Lackland Road. Turn right at the light onto Lackland Road. Turn left at the first street onto Congressional Drive. From Lackland, Woodcraft is the second business on the right side of Congressional.
