Molly Winton Demo

Demo Topics

Making miniature hollow forms

Using power carving to achieve various textures on the mini vessels

Review and discussion of pyrography units (woodburners); commercial pens, home-made pens, and brands

Making home-made brands

Tips and techniques to get good results with commercial pens and home-made brands

Discussion of design, lay-out, and composition of a piece when applying surface enhancements

Molly Winton Hands On

Topics

This class will focus upon learning tips and techniques for effective use of commercial woodburning units and pens, as well as learning to make home-made brands. I will supply 20 gauge nichrome wire; pattern books; reference books; and graphite paper. I will have my set of tools, a Burnmaster, and DetailMaster, and few commercial pens, home-made pens for use with brands, and a variety of home-made brands. If there is an interest in using/experimenting with power carving tools to make various textures, these tools will be made available as well.

You will need to bring the following:

- Woodburning unit such as a Burnmaster, DetailMaster, Razer-Tip, or similar. ****If you are purchasing one prior to the class, I recommend the Burnmaster. If you want to do branding or high temperature burning DO NOT purchase the Razer-tip.**
- Commercial pens that fit your unit.
- A pen you can attach home-made brands to, such as the Razer-Tip create-a-tip pen, or homemade pen. ***if you don't have one, you can borrow one of mine.**
- Finished or practice pieces to burn/brand.
- **Do not bring pieces that have a finish (oil/lacquer/etc.) already applied.**

A flat practice board to try different texturing/design techniques on. I recommend something such as a 1"x8"x8" piece of pine, or similar size.

****You may want to pick up a pine board at Home Depot or Lowes to cut up and share.****

- Needle nose pliers.
- Wire cutters.

Small pair of locking pliers (I will have a couple of these if you don't).

Optional items you are welcome to bring include:

- Reciprocating carver and gouges
 - Rotary carver and bits
- Dremel engraver

If you are sensitive to smoke:

PLEASE bring appropriate respiratory protection, such as a respirator. (I've had folks with COPD attend classes and not be prepared for the amount of smoke we can generate as a group.

CHECKS PAYABLE TO WOODTURNERS OF SAINT LOUIS

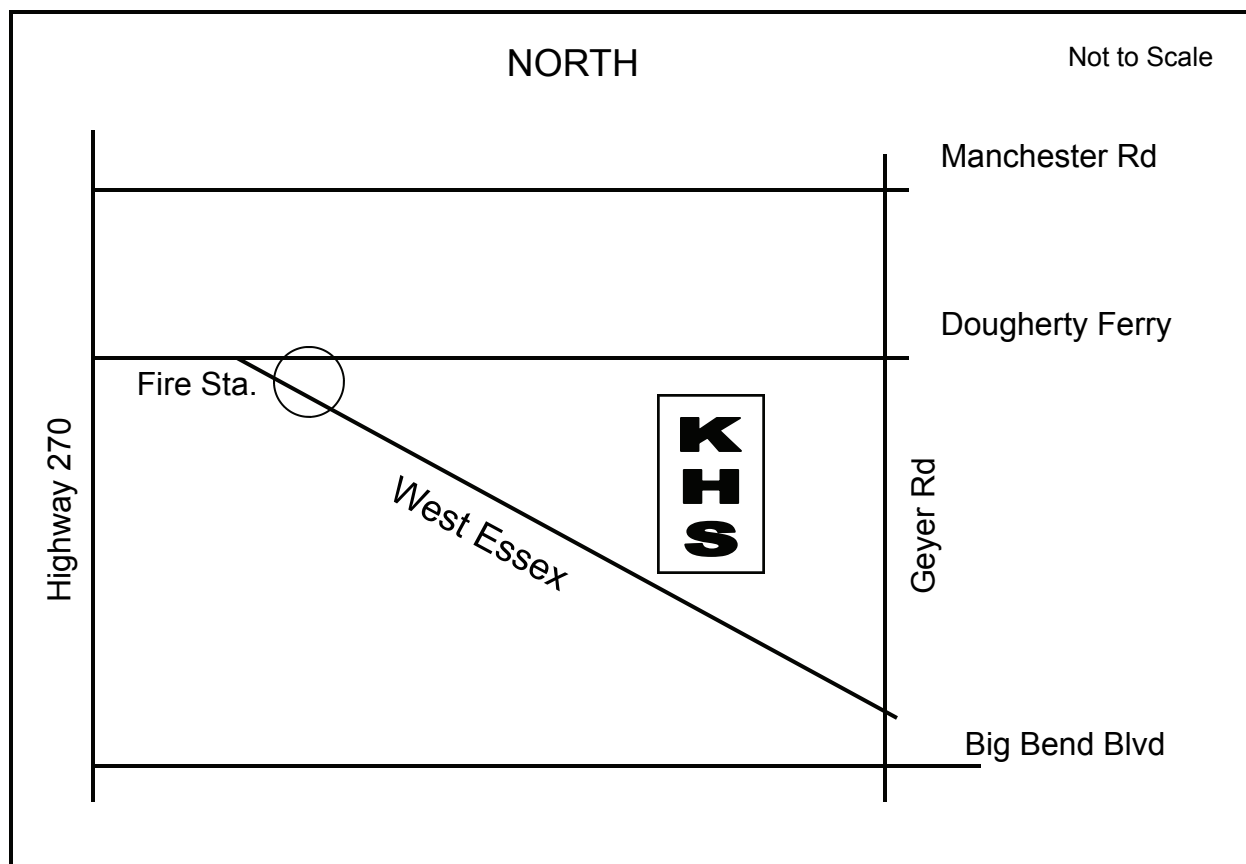

Molly Winton Demo

Kirkwood High School
Room NE 250
801 W. Essex Kirkwood, MO 63122

KHS is located on a very large campus, which includes several sports fields and several buildings. The official address is off of Essex. (South)

Our event will be on the North end of Campus, off Dougherty Ferry Road. **Parking is also on the North end of campus, next to our classroom.**

If you are unfamiliar with the location, the easiest route is to go to Highway 270 and Dougherty Ferry Road. DF is the first road south of Manchester road. Take Dougherty Ferry Road East. The campus will be on your right. (South) We will have signs pointing to the correct building.

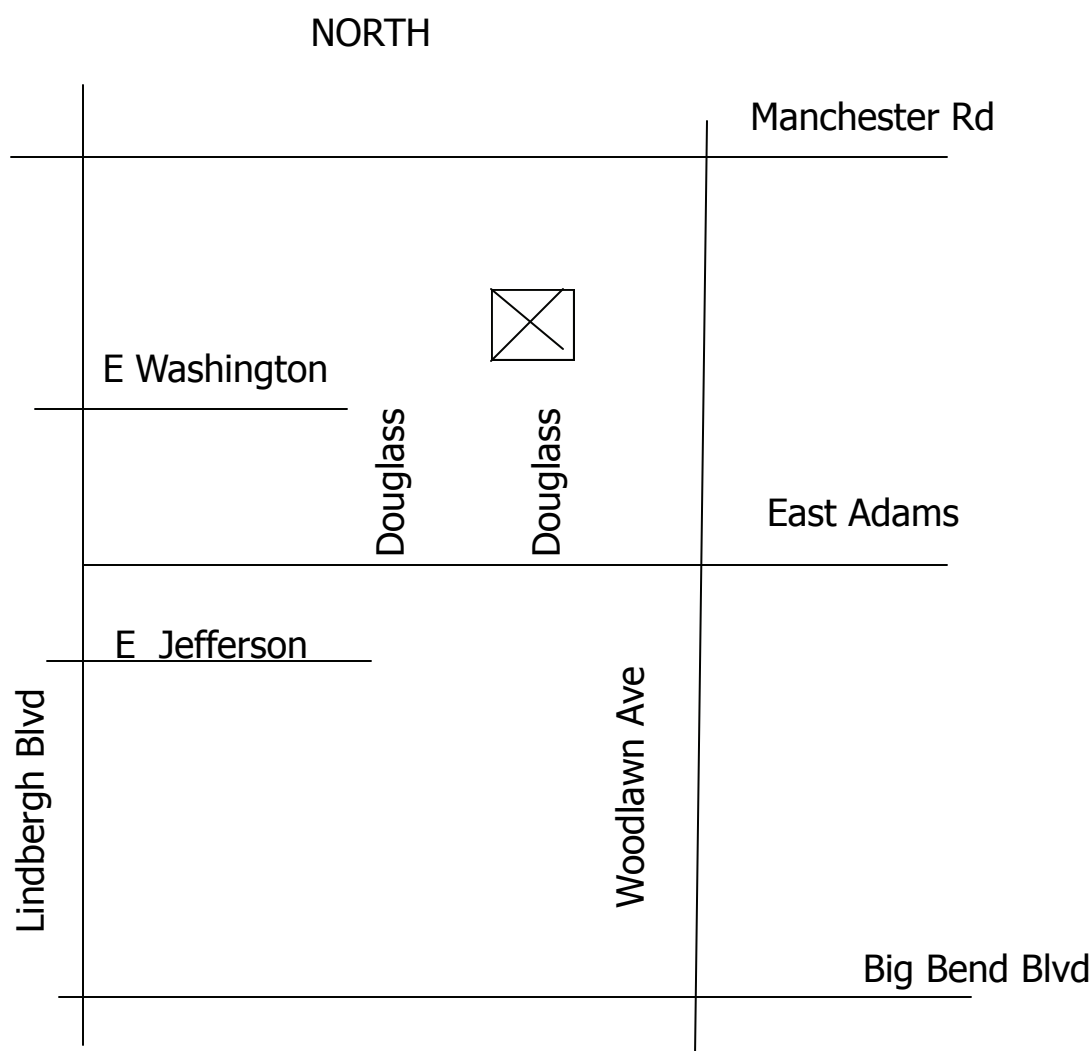

Molly Winton HandsOn Hands

Hands On will be at Dave Endres' shop. Dave is located in downtown Kirkwood, Missouri 63122

Dave's cell 314-568-1244

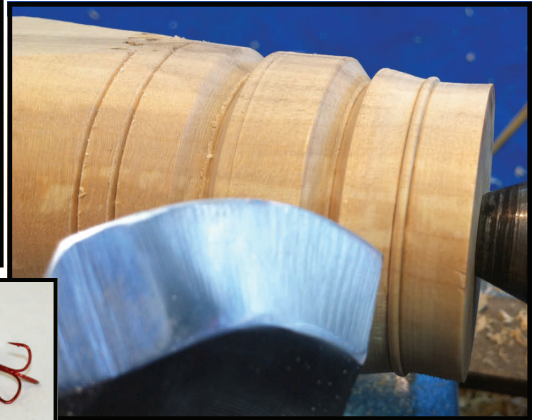

Dave's shop is all the way North, on the second Douglass Street.

Bring a folding chair and extension cord if you have one.

Not to Scale

Alan Lacer Demo

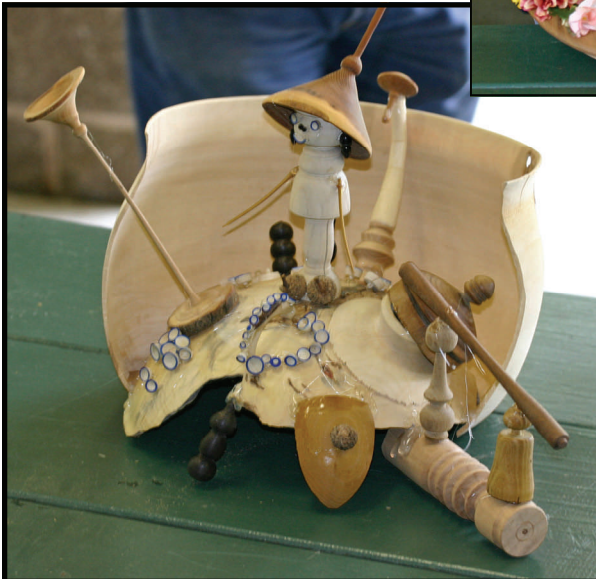

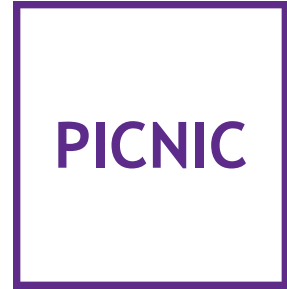

PICNIC

Thanks to Ed Daly for putting this together. It was great fun..

Dixie Smith won the club challenge for turning a 3 legged stool.

Alan Lacer judged the Turners's watchamacallit as supreme
